

Comparable Coverage – Domestic Students

For your insurance to be considered comparable to the university sponsored health plan you must be able to answer YES to the following questions.

1. Will you/your student be insured for the entire term for which he/she is registering, including holiday breaks?
2. Does your insurance plan provide for in-patient and out-patient mental health coverage?
3. Does your insurance plan provide for prescription drug coverage?
4. Does your insurance plan have an in-town provider network in the Tallahassee/Leon County area? Coverage must be available for urgent, specialty, diagnostic and hospital care. Care for emergencies only is not sufficient.
5. Does your insurance plan offer at least \$100,000 in benefits a year?
6. For female students, does your plan cover maternity as any other temporary condition?
