Subject: Affordable Dental Plans with Assurant Health

Collegiate Risk Management is very excited to offer your students an opportunity to enroll in an affordable Dental Plan which provides benefits with no provider network restrictions. This plan is offered by Assurant Health on a voluntary basis. Plan options start as low as $15.50 per month.

Students have 3 plan designs to choose from and dependent coverage is also available.

All three plans (Basic, Intermediate & Plus Options) include these benefit highlights:

- No need to choose a primary care dentist—there are no network restrictions.
- Set cash amount for each dental treatment, such as an extraction or a filling.
- Receive cash benefits directly, or allow your dentist to submit the claims for you.
- Preventive Services benefits do not take away from the Basic Services Benefits.

Basic Dental Plan highlights (adult monthly rates starting as low as $15.50):

- No waiting period for checkups—$75 preventative visit every six months.
- Annual Maximum—$500 per year for Basic Services.

Intermediate Dental Plan highlights (adult monthly rates starting as low as $26.50):

- No waiting period for checkups—$100 preventative visit every six months.
- Annual Maximum—$1,000 per year for Basic Services.

Plus Dental Plan highlights (adult monthly rates starting as low as $35.40):

- No waiting period for checkups—$100 preventative visit every six months.
- Major Services—such as Endodontics, Periodontics, Crowns and Oral Surgery.
- Annual Maximum—$1,500 per year for Basic and Major Services combined.

Students can obtain and review all the plan details and enroll online at the following website, https://consumer.eassuranthealth.com/IM/Consumer/EASE/VMQuoting/StartQuoteASC.aspx.

We can also add this optional plan information to your school’s informational page on the Collegiate Risk Management website.

Again, we feel confident that your students will be able to find a plan that will meet their dental and financial needs with any one of these Assurant Health Plans.
